boy meets girl...

Inspired by the collection of designer Clarabella, which consists of soft and light skin tone pieces. Soft fabrics show the softness of the Girl while leather and boots are used to identify with the Boy figure. To create the mood in the lighting, Yohanna reflects the cliché colour symbolising blue for boys and pink for girls and the two colours mix in the images. The model portrays the attitude and posture of the boy, yet reflects a girly softness in her petite figure and makeup.
